The Breast Cancer Research Foundation®, founded by Evelyn H. Lauder in 1993, is an independent not-for-profit organization committed to funding scientific research to achieve prevention and a cure for breast cancer in our lifetime. In October 2012, BCRF will award at least \$40 million to more than 190 researchers across the United States, Canada, Latin America, Europe, the Middle East, Australia, and China. Currently, with 91 cents of every dollar spent being directed to breast cancer research and awareness programs, BCRF continues to remain one of the most fiscally responsible charities in the country. BCRF holds a 4-star rating from Charity Navigator and is its tenth such designation since 2002. Additionally, it is the only cancer organization designated as "A+" by CharityWatch. For more information about BCRF, visit www.bcrfcure.org.
