**The Breast Cancer Research Foundation®**, founded by Evelyn H. Lauder in 1993, is an independent not-for-profit organization committed to funding scientific research to achieve prevention and a cure for breast cancer in our lifetime. In October 2012, BCRF awarded \$40 million to 197 scientists across the United States, Canada, Latin America, Europe, the Middle East, Australia, and China. Currently, 91 cents of every dollar spent by BCRF is directed towards breast cancer research and awareness programs. BCRF remains one of the most fiscally responsible charities in the country. For the tenth time since 2002, it has earned 4 stars from Charity Navigator. Additionally, BCRF is the only *cancer* organization rated an “A+” by CharityWatch.
